In this special multimedia presentation of *The Planets*, the Auburn Symphony is joined by guest conductor Anthony Spain and Seattle based artist [Adrian Wyard](#), who will provide live visual accompaniment.

Wyard's visuals for this event include dazzling NASA images for each planet. All of the photos, animations, and videos are based on truth and incorporate real space imagery. Choreographed live, the visuals follow the emotional journey of the symphony's music performance, matching it beat by beat and providing a dramatic and immersive experience that guarantees fun for all ages.

A **preview video** [here](#) shows just a small example of what one can expect at this concert.
